The Master of Business Administration program will prepare today’s managers to become tomorrow’s leaders. The curriculum is designed to help those with a minimum of three years of managerial experience reach their highest potential in the corporate environment.

The curriculum associated with the health care administration concentration focuses on skills relevant to the current health care environment, including management concepts and process, resource allocation, risk management, and financing.

The accelerated program consists of 10 three-credit courses, totaling 30 credits. The finance concentration requires three additional courses for a total of 39 credits.
